BioscienceLA

Takeaway n*1

LA sports a fair number of high-profile bio investors such as Westlake Bio and Vida Ventures. But is looking for more early-stage investors, like Mars Bio TechCoast Angels and Wavemaker 360.

BioscienceLA

Takeaway n*2

University tech-transfer offices and student-run organizations such as BCCLA play an important role in connecting rising talent to new companies, both on the science and on the business side.

BioscienceLA

Takeaway n*3

Los Angeles is quite lively in terms of incubation spaces like Braid Theory and Bio Labs, with opportunities for industries to rub up against each other for inspiring mashups. Hatch is a start at providing the “graduation spaces” that companies need as they begin to scale.
